

Calcium, Lime & Rust Remover Usage Instructions

Gloves Off™ Calcium, Lime & Rust Remover is a non-corrosive, readily biodegradable solution that safely and effectively removes calcium, lime, rust and hard water stains. It's also septic safe.

Directions

Always test on an inconspicuous section first.

Toilet bowls, sinks, tubs, porcelain, stucco, brick, cement, glass, chrome and stainless steel: Spray directly on surface with brush and wipe with brush or sponge as required. Rinse thoroughly with water.

Coffee maker: Mix 1 part Gloves Off with 8 parts water. Run through machine as if making coffee. Rinse thoroughly by running 4 full pots of water through complete cycle. Do not use in coffee makers that hold water continuously.

Coffee pots, pans, kettles and humidifiers: Coat inside surface, then use a brush or sponge to wipe away stains. Add water and soak for 2 minutes. Rinse thoroughly.

Do Not Use On: natural stone, marble, terrazzo, coloured grout, painted/metallic glazed surfaces, plastic laminates, Formica®, copper, brass, irons, refinished tubs or damaged surfaces.

Note: May etch older sinks, tubs and tiles. May return older cement to its original white appearance. Avoid contact with wood, clothing, wallpaper and carpeting. Always avoid prolonged contact with any surface. Rinse thoroughly with water after use. Test on an inconspicuous section first.

Keep out of reach of children. Avoid contact with eyes. May irritate eyes. If in eyes, rinse with water for 15 minutes. Do not ingest. If swallowed, call Poison Control Centre or doctor immediately.

First aid treatment: contains: Organic Salt.
