

Tough Stain Remover & Degreaser Usage Instructions

Gloves Off™ Tough Stain Remover & Degreaser penetrates and removes the toughest and greasiest stains and spills. The breakthrough solution contains only non-toxic and readily biodegradable ingredients, making it safe for users and the environment.

Gloves Off removes stains such as dried latex paint, pen, crayon, marker, make-up, pet stains, food and drink stains, grease, chewing gum, adhesive, soap scum, rust marks and more.

Gloves Off is safe for use on most hard and soft surfaces including wood, laminated surfaces, hard plastics, rubber, metal, glass, masonry, grout, fiberglass, fabrics, clothing, upholstery and carpet.

Directions

Always test on an inconspicuous section first.

Hard Surfaces: Apply directly on affected area, briefly allow to penetrate stain and wipe off. For more difficult stains, allow product to stand for 2-3 minutes before wiping off. Scrub with a brush or scouring pad if necessary. Rinse surfaces as required.

Fabrics and Carpets: Apply a small amount of product on affected area and blot with a wet cloth. Repeat if necessary. Following treatment of clothing, launder items separately according to manufacturer's instructions.

Keep out of reach of children. Do not ingest. Avoid contact with eyes. Prolonged contact with skin may cause dryness. Users with sensitive skin should take extra precautions.
